

Accelerating Equitable Learning Recovery Post-COVID: A Few Big Bets, Part II

June 8, 2021

The logo consists of a purple square with a white border. Inside the square, the text "The Campaign for" is at the top in a small font, "GRADE-LEVEL" is in the middle in a larger font, and "READING" is at the bottom in the largest font, all in white capital letters.

Common Sense Research and Advocacy Efforts

- Closing the digital divide is a fundamental equity issue.
- State and district efforts have been significant but insufficient; up to 12 million K-12 students remain under-connected going into 2021.
- Federal and state policy should enable expanded investment in closing the digital divide.
- Cross-sector partnerships among public, private and social sectors are essential to close the digital divide – and keep it closed.
- American Rescue Plan: Over 7 Billion dollars will go to providing broadband access and devices to families who need it.

Common Sense, *Boston Consulting Group (BCG)*, and the Southern Education Foundation.

THANK YOU, PRESIDENT BIDEN AND SENATORS MARK KELLY AND KYRSTEN SINEMA

IS THIS THE BIGGEST DAY EVER FOR THE CHILDREN OF AMERICA?

Now, for the first time in generations, the new Child Tax Credit will cut child poverty nearly in half. Childcare will see an infusion of more than \$50 billion, relieving parents everywhere from the stress of the past year. Over \$7 billion will flow to provide broadband and devices to homes without them, giving all children a leg up on a great education. There's food assistance for families who need it, and eviction protection to help kids stay in their homes. It's the new \$1.9 trillion American Rescue Plan. It's what America's leaders do for America's children.
